

We are excited to announce that our school is participating in the Inclusive School Communities Project

Our school is committed to inclusion and valuing diversity. We want to make sure all students, families, and school staff feel like they belong and are part of our school community.

Our school is working with the project team and other schools across South Australia to improve the way we support students with diverse abilities and needs.

We need your help to make our school a great place to learn, grow and play.

The Inclusive School Communities Project is being delivered by JFA Purple Orange and funded by the National Disability Insurance Scheme.
